

PROJECT SCOPE STATEMENT	
<b>Project Name</b>	SuggestMe Music
<b>Project Deliverables</b>	<b>Detailed Description</b>
[Deliverable]	[Describe this deliverable in as much detail as possible.]
High-Fidelity Prototype	This is the first step to produce the website layout. This would show how we want our website to work, this allows realistic computer user interactions
Front end	In order to accomplish this web design; the front end is required to be presentable with HTML and custom CSS classes without the violation of XHTML code rules.
Back end	The algorithm that we are going to implement in the web page is going to be run with JavaScript. Server side; we will implement mySQL and PHP.
Working Website	This is the fully working result of the project.
Project Exclusions	
We wont include cloud resources as we will be running it on school server.
